

Raja Rogers Meeting Notes
August 8, 2006

1. Flying 1134 in FF and 133 in DC – 8/7/06
From our domain, 43 to DC, 99 to FF
About 40 apps a day are coming in. Yesterday 42 new people were registered in FF and 10 in DC.
2. Raja Rogers: Need to break that magic 1730 number – MMY, the Rajas and Bevan would really love to see that.
3. There will be a call by Raja Rogers on Thursday at 8:30pm to inspire Sidhas and Govs to attend the Inv. America course.
4. Ray – how about a call on Sunday?
5. Raja Rogers: We'll go with Thursday, and maybe we'll tape it for you on Sunday.
6. Family chat talk was beautiful. Can that tape be played? Will check.
7. If you want postcards inspiring people to go on the Inv America course, contact Elaine. Postcards also mention the Atlanta WPA/RC.
8. In Sarasota, they are just having the RC over Labor Day. Should we not even push for the WPA?
9. Raja Rogers: Yes, great time for an RC.
First priority for flyers – 1. Go to DC or FF. 2. Fly in groups in vastu 3. Fly at SuperRandiance times.
10. Jeff Litwin: If Gov or Sidha are married to a meditator, it is good to have a WPA and RC together so they can attend together. So we are offering that in Atlanta over Labor Day, but encouraging Sidhas to also go to DC or FF.
11. Raja Rogers: we'll check that if people can't come to DC or FF, and they go to a RC and WPA that they can fly at the same time. Maybe we should count the flyers on the course in our grand totals since they will be lifting off at the same time. We'll check on this as well as about giving out the new program.
12. Dori: Compensation for upcoming Atlanta course – if Center sends 3 people, then Center gets third person in NetSuite. This will be clarified via an email.
13. Dr. Stuart: 7 people here from Palm Beach Co going to the course. We are going to the course for two weeks and then Thompsons will go. So our Center will be covered.

14. DC course – may not continue into Sept so people who want to go to DC should go in August.

15. Raja Rogers: Directors can go to the Inv America course for 1- 2 weeks. Important to keep the Centers covered and keep things moving.

16. Raja Rogers: CBE Tour coming up in late Oct/early Nov.

Okay for Directors to sign contracts. Directors can sign hotel contracts as MVED.

17. Jane: Is there a shorter MVED 501c3 document? Elaine will check.

18. Jane: Can we send bulk mail under another name like “Committee for Stress-Free Schools?” Yes, as long as you apply for a DBA on your state’s website. Charlie will see if MVED is okay with using this DBA (Committee for ...Schools).

19. Tony Miles: This is a great time to have meditators become Sidhas. Boone is having a CIC the last 3 weekends in Sept. We have 5 people. We encourage other Directors to send people to the CIC. They will get credit.

20. Raja Rogers with Balraj Maharishi in woods in Estonia. He said that next to every dangerous plant grows its antidote. Just like that the Yogic Flyers are the antidote to Kali Yuga.

I suspect that this course will be extended into a group that upholds the SuperRadiance number for the US, where people can rotate through for 1-2 weeks.

Use Jeff Moses’ suggestion of having people who have been on the course call their friends. This is so powerful.

Always be alert to talk with your Sidhas and Gops and also gather email addresses and phone numbers.

Raja Ram – change is inevitable. It can either be smooth or rough.

21. Alcine – length of time meditating before taking the Sidhis? 2 months.

22. Stuart – meditators come for a group check while the Sidhas are resting. Afterwards everyone has a potluck and adv lecture. Meditators really get inspired by the Sidhas.

23. Meeting next Tuesday.
